Mills RCD Adaptor (Plug In)

Product Images

Product Code: P89-1363

Short Description

The RCD Adaptor provides an extra layer of electrical safety by protecting connected equipment against earth leakage faults.

Description

The RCD Adaptor provides an extra layer of electrical safety by protecting connected equipment against earth leakage faults.

Featuring a 30mA trip sensitivity and a rapid trip time of less than 30 milliseconds, it helps disconnect power quickly when a fault occurs.

The adaptor includes a test button, reset button, and a red indicator light to confirm protection is active.

Rated at 13A and suitable for loads up to 3200W, it is ideal for use with power tools, portable equipment, and general electrical applications indoors.

Key Features:

- Provides additional RCD safety protection.
- Trips at 30mA to help protect against electric shock.
- Fast trip time under 30ms for quick fault detection.
- Rated at 13A with a maximum load of 3200W.
- Built-in Test button to check operation before use.
- Reset button for easy restoration after testing or tripping.
- Red indicator light shows when protection is active.
- Simple plug-in design for standard UK sockets.
- Suitable for indoor use.
