

Hydraulic Cable Drum Lifting Jacks

Product Images

Product Code: U00-1180

Short Description

Available in 3000kg, 6,000kg and 10,000kg capacity models.

Description

Hydraulic cable drum jacks, suitable for handling larger drum diameters and capacities.

Supplied with bearings for the drum spindle to rotate within thus providing a much easier turning of the cable drum.

Two handles on either side of the column uprights make moving the frames around a safer and easier solution.

Available in 3000kg, 6,000kg and 10,000kg capacity models.

3,000kg Capacity (Pair)

Minimum Drum Diameter: 500mm

Maximum Drum Diameter: 2000mm

6,000kg Capacity (Pair)

Minimum Drum Diameter: 800mm

Maximum Drum Diameter: 2500mm

10,000kg Capacity (Pair)

Minimum Drum Diameter: 900mm

Maximum Drum Diameter: 3600mm
